Glossary

Throughput Number of requests completed in a time interval.

Response Time The time that passed to perform the request and receive full response.

Latency The time from sending the request, processing it on the server side, to the time the client received the first byte.

About BlazeMeter

BlazeMeter offers a cross-enterprise test automation framework for the entire technical team throughout the product development lifecycle. Developers, DevOps, Ops and QA Engineers can run Continuous or "On Demand" testing for APIs, mobile apps and websites.
